

Bayern Munich attacking scheme against PSG (UCL Final scenario):

The play begins with Manuel Neuer distributing the ball short to Matthijs de Ligt.

De Ligt passes forward to Joshua Kimmich in midfield.

Kimmich controls the tempo and quickly switches play to the right wing towards Leroy Sané.

Sané dribbles forward, attracting PSG defenders including Nuno Mendes.

Meanwhile, Jamal Musiala moves into the half-space to receive a short pass.

Sané passes inside to Musiala, who turns and advances toward the edge of the box.

Alphonso Davies overlaps on the left side, stretching PSG's defensive line.

Musiala plays a through ball into the box towards Harry Kane.

Kane positions himself between Marquinhos and Milan Škriniar.

Kane receives the ball and attempts a shot on goal.

If the shot is blocked, Thomas Müller is positioned to recover the rebound and finish the attack.

If possession is lost, Bayern immediately applies high pressing to regain the ball.
